APPOINTMENT

CEO, Chung Hwa Pulp Corporation (CHP)

CEO, Kang Na Hsiung Enterprise Corporation (KNH)

Executive Director, Outlook Investment Holding, Singapore

Head of Asia Pacific Health Care/Personal Care Sales and Market Development, 3M, USA

Sr. Manager of New Products and Business Developments, 3M, USA

Kirk began his career at 3M in Minnesota in 1983 as a senior researcher, and then moved to managerial position in business development. In 1995, he was appointed to be the head of 3M Asia Pacific Health Care & Personal Care business unit.

From 1999 to 2011, Kirk served as President and then CEO of KNH, a specialty nonwoven material and consumer products company with operations in Taiwan, China, and Indonesia. During his tenure, KNH transformed from a Taiwan domestic business to a globally recognized leading nonwoven companies and ranked #1 in Asia Nonwoven market.

On July 1, 2011, Kirk Hwang joined Chung Hwa Pulp (CHP) and served as the CEO and President. The merge with YFY Fine paper & Paper Board Division in 2013, CHP becomes the largest Taiwan based pulp and paper manufacturing company with diversified businesses in green energy, plantation, and specialty biomass materials.

Kirk has been a member of Board of Directors on several YFY affiliates including :

- YFY Inc
- Guangdong Dingfeng Pulp and Paper Co., Ltd
- Guangdong Dingfeng Pulp and Paper Co., Ltd
- Shin Foong Specialty and Applied Materials Co., Ltd
- Taiwan Global BioFund

He has held various positions in industry associations including :

- Executive Director, Taiwan Paper Industry Association (TPA)
- Director, Taiwan Carbon Capture and Storage United Association (TCCSUA)
- Director of Center of Corporate Sustainability (CCS)
- Member of Taiwan Institute of Chemical Engineers (TwIChE).

Kirk's previous community and industry contributions include

- President of University of Wisconsin Alumni in Taiwan
- Executive Director of the Taiwan Nonwoven and Technical Fabric Association

He is also an active member on the Advisory Committee of Taiwan's National Science & Technology Program.
